2. INTRODUCTION

2.1 Purpose

The Sunshine Coast Regional District (SCRD) is seeking proposals from qualified civil engineering consultants to prepare a conceptual site plan and provide a high-level Class D cost estimate for leasehold improvements required to establish a satellite transit bus parking facility. The facility is intended to accommodate up to 15 transit buses, associated circulation areas, employee parking, modular office and washroom building(s), and necessary infrastructure.

3. SITUATION/OVERVIEW

3.1 Background

SCRD is exploring options to establish a satellite parking site to support transit operations. The proposed site will be leased land requiring conceptual layout planning and cost estimation for the necessary leasehold improvements. The successful consultant will help inform budgetary and design decisions for advancing the project.

As the SCRD proceeds with securing a lease for a satellite transit parking site with a term of up to 10 years, it is important to recognize the temporary nature of this arrangement and the fact that the property will remain under third-party ownership.

Given these parameters, the approach to leasehold improvements will prioritize:

- Functionality and compliance with all operational, safety, and regulatory requirements;
- Cost-effectiveness, ensuring that investments are kept proportional to the temporary use of the site;
- Simplicity and durability, favoring practical solutions that minimize long-term maintenance;
- A clean and professional appearance, fostering a positive work environment for staff, while recognizing the short-term nature of the site.

In short, improvements will be undertaken in a way that is cheerful but economical — providing a safe, comfortable, and operationally sound space for transit staff without incurring unnecessary capital costs for a non-owned, time-limited asset.

This approach ensures fiscal responsibility while delivering a functional and welcoming environment for our operations.

3.2 Project Objectives

- a) Develop a functional conceptual layout maximizing site efficiency, safety, and future expansion potential.
- b) Provide a **comprehensive Class D (or equivalent) cost estimate** with a **Schedule of Quantities and Prices** for all required leasehold improvements and modular facilities.
- c) Support SCRD decision-making regarding feasibility and subsequent detailed design.

3.3 Scope

The Consultant will deliver conceptual site planning, cost estimation, and site inspection/review services for the selected site. The project is to be completed by December 1, 2026 with an early-stage field inspection following contract award.

4. CONTRACT

4.1 General Contract Terms and Conditions

Proponents should review carefully the terms and conditions set out in the General Service Contract, including the Schedules. The General Contract terms can be found at: Information about our General Service Terms and Conditions can be found at www.scrd.ca/bid.

4.2 Service Requirements

The Contractor will provide all labour, expertise, and coordination to deliver a conceptual site plan and Class D cost estimate for establishing a satellite transit bus parking site.

Key Tasks:

- Kick-off meeting: within 5 business days of award.
- Field inspection & site review: within 10 business days; provide photos and brief site-conditions report.
- Conceptual site layout: design parking and circulation for 15 buses, 15 staff stalls, snow storage, break and dispatch trailer unit (~ 6-person and storage), washroom trailer, waste enclosure, and space for future expansion.

- Leasehold improvements planning: grading and surfacing, fencing, mechanical gate, lighting, wayfinding signage, security, wifi, and utility-servicing feasibility (electrical, water, wastewater).
- Recommend efficiencies and cost savings where appropriate (e.g. hot parking vs staff parking, self contained trailer(s) vs hook-ups to services).
- Cost estimation: Class D estimate with a detailed Schedule of Quantities & Prices (Excel) for all components, including modular buildings and utility hookups.
- Provide option to hook up trailer/washrooms to utilities vs have self contained washroom trailer, generators
- Optional topographic survey: recommend and price if required for grading/drainage analysis.
- Final report & communication: concise report of assumptions, findings, and recommendations; attend up to two progress meetings.

4.3 Timeline Highlights

- Draft conceptual plan: ~4 weeks after site inspection.
- SCRD review: ~2 weeks after draft submission.
- Final plan, cost estimate, and all deliverables: no later than January 31, 2026

5. REQUIREMENTS

The Regional District reserves the right to seek additional references independent of those supplied by the Proponent, including internal references in relation to the Proponent's and any subcontractor's performance under any past or current contracts with the Regional District or other verifications as are deemed necessary by it to verify the information contained in the proposal and to confirm the suitability of the Proponent.
