

SUNSHINE COAST REGIONAL DISTRICT

Question and Answers #1

Request for Standing Offer No. 2611606

Electrical Engineering Services

Date: March 17, 2026

Item No.1

Question: To better understand and standardize the pricing evaluation process, could you please identify the key personnel roles required so we can structure our pricing submission accordingly?

Answer:

The Regional District expects proponents to provide hourly rates for the roles they deem necessary to complete the Scope of Work, typically including:

- Principle Engineer/Project Manager
- Senior Engineer (QA/QC)
- Intermediate Engineer
- Junior Engineer/EIT
- Technologist/Design
- Admin / Support

Proponents should ensure their team includes a responsible registrant with a valid EGBC Permit to Practice. Proponents should clearly identify each role included in the pricing table.

Item No.2

Question: We would also like to request a two-week extension to the submission deadline to allow sufficient time to prepare and submit a comprehensive proposal.

Answer: Please see Amendment No.1
