

# SUNSHINE COAST REGIONAL DISTRICT

## Question and Answers #2

Request for Standing Offer No. 2611606

Electrical Engineering Services

**Date: March 24, 2026**

### **Item No.1**

#### **Question:**

Clarification on the contract term and pricing requirements outlined in the RFP.

Appendix A indicates that the standing offer term is from April 2026 to April 2029. However, Section 5.4 (Price) requests billing rates for the years 2025, 2026, and 2027.

Can you please confirm if the pricing schedule in Section 5.4 should align with the contract term outlined in Appendix A? If so, should proponents instead provide rates for 2026, 2027, and 2028, or for the full duration of the standing offer?

#### **Answer:**

The Standing Offer term is correctly stated in Appendix A as April 2026 to April 2029.

For pricing, Section 5.4 requests billing rates for 2025, 2026, and 2027 to allow the Regional District to evaluate current rates and anticipated escalations at the outset of the Standing Offer. These rates will form the basis for pricing at the start of the agreement in 2026 and may be adjusted in accordance with the proposed annual increases.

Accordingly, proponents should provide rates as requested in Section 5.4. These rates will be used to inform the applicable rates during the Standing Offer term.
