

SUNSHINE COAST REGIONAL DISTRICT

Question and Answers # 1

Project no 2661302

Title: Sechelt Aquatic Centre Valve Replacement

Date: June 1st, 2026

Item No.1

Question: Can you provide a valve count broken down by size?

Answer: No. As shown in the RFQ we simply want a unit price and a bulk price of the units listed 1 thru 8.

Item No.2

Question: Is there a planned aquatic centre shutdown that this work needs to be coordinated with? If not, what is the intended execution timeline?

Answer: No, this is a supply only as mentioned in the RFQ under Requirements. The SCRDR will install when the timing is right.

Item No.3

Question: Are the existing valve bolt-up connections in good condition, or will they require replacement as part of this scope?

Answer: Bolt connections have never been apart. The flanges are in good shape. Supply only of valves as shown in the appendixes will be sufficient

Item No.4

Question: Is it expected that all work will be carried out during standard day shift hours?

Answer: No, this is a supply only as mentioned in the RFQ under Requirements.
