

# SUNSHINE COAST REGIONAL DISTRICT

## Question and Answers #1

Request for Proposal No. 2435202

Vertical Expansion and Waste Export Feasibility Study, and Vertical Expansion Engineering

**Date: June 26, 2024**

### Item No. 1

**Question:** The Task 4 scope is not very clear at this point, and we aren't confident that we can provide accurate price for this task. The RFP is also unclear in what parts of task 4 should be estimated; it seems that only the construction management and post construction engineering services should be priced out. Can you please confirm the extent to which we should provide pricing for Task 4, and the level of confidence that should be reflected in the estimate? Can the proponent provide just a price range, or could the pricing be negotiated at a later stage?

### Answer:

Regarding Task 4, please provide hourly rates and price estimates for items 1 (Vertical Expansion Engineering and Design Services; including construction management and post construction engineering services) and 2 (Additional Waste Export Assessments), as detailed on page 12 of 18 under Task 4. Note that the pricing provided for Task 4 is not being used to evaluate submissions. The Regional District will use this information for budgeting purposes and the exact price to perform this work will be determined through a contract amendment, following completion of Tasks 1, 2, and 3 and direction from the Regional District Board.
