

SUNSHINE COAST REGIONAL DISTRICT

Question and Answers #2

Request for Proposal No.2465005

Park Enhancements Coopers Green

Date: April 12, 2024

Item No.1

Question: RFP notes a requirement for a geotechnical engineer, however, what is the scope of work for the geotechnical engineer? Is a full geotechnical report required?

Answer: The Contractor will be responsible for all geotechnical requirements and signoffs on this site for any improvements that are the outcome of this project / process. The Regional District has completed a preliminary geotechnical report from Western Geotechnical Consultants Ltd in 2017 and retain the services of Arya Engineering Inc in 2022; the Regional District may provide copies of this reports to the Contractor upon request. However, the Contractor for this project will be required to obtain, meet all requirements / regulations and provide all geotechnical services.
