

SUNSHINE COAST REGIONAL DISTRICT

Question and Answers #1

Request for Proposal No. 2334502

Engineering Services Hopkins Landing Capital Upgrade

Date: October 27, 2023

Item No.1

In section 3.1, it states that: *Proponents are asked to submit no more than 3 design options for the construction of the facility, each design option will be evaluated as a separate proposal.* What level of design detail is expected in the proposal? Does the submission require drawings?

Answer

The Proponent is to submit a level of design detail that would convey the main information the Proponent is trying to feature within their design. This may include but is not limited to key features, general layout, pros and cons, environmental impacts, cost considerations, etc. The drawing submitted is what the proponent deems necessary to convey this information. To include a drawing or sketch of their proposed design/repairs of the facility is the decision of the Proponent.

Item No.2

There are comments on the document already. Is the version uploaded to BC Bid and your own website the final version with these comments incorporated?

Answer

See Addendum No.1

Item No.3

Under section 4.2 Related Documents, there is mention of the following 3 appendices:

- Appendix A: Herold Engineering condition assessment report 2023
- Appendix B: Herold Engineering load limit assessment report 2019
- Appendix C: Summerhill inspection report 2023

We are unable to locate these on the SCRD site. Please provide these three appendices.

Answer

See Addendum No.1
